Independent Auditors' Report

Honorable Mayor,
City Manager and Members of the City Council
City of Kingston, Tennessee

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Kingston, Tennessee (the "City"), as of and for the year ended June 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we express no such opinion.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Kingston, Tennessee, as of June 30, 2010, and the respective changes in financial position and, cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 2, 2010, on our consideration of the City of Kingston, Tennessee's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 3 through 7 and the schedule of funding progress on page 31 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Kingston, Tennessee's basic financial statements. The supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

CITY OF KINGSTON, TENNESSEE
Management's Discussion and Analysis
June 30, 2010

As management of the City of Kingston, Tennessee, (the "City") we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City of Kingston for the fiscal year ended June 30, 2010. Readers are encouraged to consider the information presented here in conjunction with the City's financial statements.

Financial Highlights

- At June 30, 2010, the assets of the City of Kingston exceeded its liabilities by \$11,549,774. Of this amount, \$2,759,636 is considered unrestricted funds and may be used to meet the City's ongoing obligations to citizens and creditors.
- The City issued new debt during the current fiscal year in the amount of \$1,022,856 while the amount paid down on debt totaled \$702,971 resulting in a net increase in debt of \$319,885.
- At the end of the current fiscal year, the City's enterprise (water and sewer) fund reported an ending fund balance of \$7,017,639. Of this amount, \$2,000,823 or 28.51% is in restricted funds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction of the City of Kingston's basic financial statements. The City of Kingston's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The Government-Wide Financial Statements are designed to provide readers with a broad overview of the City of Kingston's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the Government-Wide Financial Statements distinguish functions of the City of Kingston that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and streets, drug enforcement, parks and recreation and waste management services. The business-type activities include Kingston Utilities wastewater and waterworks services.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Kingston, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Kingston can be divided into two categories: governmental funds and proprietary funds.

CITY OF KINGSTON, TENNESSEE
Management's Discussion and Analysis (Continued)

Governmental Funds

Government funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Proprietary Funds

The City of Kingston maintains a Water and Sewer fund as an enterprise or proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information of the Water and Sewer activities, which is also considered a major fund of the City.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Kingston's budgetary fund balance, noting variances with actual and final budget amounts.

CITY OF KINGSTON, TENNESSEE
Management's Discussion and Analysis (Continued)

Government-Wide Financial Analysis

The following table provides a summary of the City's net assets at June 30, 2010 and 2009:

	<u>June 30, 2010</u>	<u>June 30, 2009</u>	<u>Increase/ (Decrease)</u>	<u>% Increase/ (Decrease)</u>
Current and other assets	\$ 5,902,127	\$ 5,355,146	\$ 546,981	10.2%
Capital assets	<u>16,947,285</u>	<u>16,683,561</u>	<u>263,724</u>	1.6%
Total assets	<u>\$ 22,849,412</u>	<u>\$ 22,038,707</u>	<u>\$ 810,705</u>	3.7%
Long-term liabilities outstanding	\$ 8,663,083	\$ 8,624,814	\$ 38,269	0.4%
Other liabilities	2,636,555	2,386,460	250,095	10.5%
Net assets	<u>11,549,774</u>	<u>11,027,433</u>	<u>522,341</u>	4.7%
Total liabilities and net assets	<u>\$ 22,849,412</u>	<u>\$ 22,038,707</u>	<u>\$ 810,705</u>	3.7%

The following table provides a summary of the City's changes in net assets for the years ended June 30, 2010 and 2009:

	Summary of Changes in Net Assets			
	<u>June 30, 2010</u>	<u>June 30, 2009</u>	<u>Increase/ (Decrease)</u>	<u>% Increase/ (Decrease)</u>
Revenues				
Governmental activities	\$ 4,813,619	\$ 4,981,612	\$ (167,993)	-3.4%
Business-type activities	<u>4,049,962</u>	<u>2,875,314</u>	<u>1,174,648</u>	40.9%
Total revenues	8,863,581	7,856,926	1,006,655	12.8%
Expenses	<u>8,341,240</u>	<u>7,703,859</u>	<u>637,381</u>	8.3%
Change in net assets	<u>\$ 522,341</u>	<u>\$ 153,067</u>	<u>\$ 369,274</u>	241.2%

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Kingston, total assets exceeded liabilities by \$11,549,774 at the close of this fiscal year.

The largest portion of the City of Kingston's net assets (58.69%) reflects its investment in capital assets (e.g., land, buildings, vehicles, equipment, and infrastructure), less any related debt used to acquire those assets that are still outstanding. The City of Kingston uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City of Kingston's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF KINGSTON, TENNESSEE
Management's Discussion and Analysis (Continued)

Financial Analysis of the City's Funds

As noted earlier, the City of Kingston uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Kingston's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year. As of June 30, 2010, the City of Kingston's general fund reported an ending fund balance of \$1,335,336, a decrease in comparison with the prior year. The Special Revenue Funds reported an ending fund balance of \$10,749, a decrease in comparison to the prior year.

The general fund is the chief operating fund of the City of Kingston. At June 30, 2010, unreserved fund balance of the general fund was \$1,335,336. As a measure of the general fund's liquidity, it may be useful to compare both the unreserved fund balance and the total fund balance to total fund expenditures. Unreserved fund balance represents 25.95% of total general fund expenditures. The fund balance decreased \$11,757 as a result of the current fiscal year operations.

Proprietary Funds

The City's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water and Sewer fund at the end of the year amounted to \$589,670. The total increase in net assets for the Water and Sewer fund was \$604,933. The fund had \$4,427,146 in net assets invested in capital assets net of related debt. Factors concerning the financial position of this fund have already been addressed in the discussion of the City's business-type activities.

Capital Assets

The City of Kingston's investment in capital assets for its governmental activities as of June 30, 2010, amounted to \$5,095,544. This investment includes land and land improvements, buildings, machinery, and equipment. In the City's proprietary fund, the utility plant in service (net of depreciation) as of June 30, 2010, is \$11,851,741.

Major capital asset events during the current fiscal year included the following:

- Completion of Gallaher Road, Phase I
- Construction of new sewer lines

CITY OF KINGSTON, TENNESSEE
Management's Discussion and Analysis (Continued)

Capital assets of the City of Kingston at June 30, 2010 are as follows:

	Governmental activities	Business-type activities	Total
Land	\$ 718,086	\$ 46,361	\$ 764,447
Buildings and improvements	2,785,578	-	2,785,578

Other improvements	3,273,390	-	3,273,390
Construction in progress	-	782,552	782,552
Total capital assets at cost	9,781,330	18,900,022	28,681,352
Accumulated depreciation	<u>(4,685,786)</u>	<u>(7,048,281)</u>	<u>(11,734,067)</u>
Capital assets, net	<u>\$ 5,095,544</u>	<u>\$ 11,851,741</u>	<u>\$ 16,947,285</u>

Economic Factors and Next Year's Budget and Rates

The following factors were considered in preparing the City's budget for the 2010-2011 fiscal year.

- Water and sewer rates did not increase in the current year.
- With the exception of business taxes, state shared revenues have marginally increased over the past few years.
- Inflationary trends in health care and fuel costs continue to impact increases in next year's budget projections.

Requests for Information

This financial report is designed to provide a general overview of the City of Kingston's finances. Questions concerning any information provided in this report or requests for any additional financial information should be addressed to the Office of the City Manager, City of Kingston, 125 W. Cumberland St., Kingston, Tennessee 37763.

Fund balance, end of the year	<u>\$ 1,335,336</u>	<u>\$ 10,749</u>	<u>\$ 1,346,085</u>

CITY OF KINGSTON, TENNESSEE
 Governmental Funds
 Reconciliation of the Statement of Revenues,
 Expenditures, and Changes in Fund Balance to the Statement of Activities
 Year Ended June 30, 2010

Net change in fund balances - total governmental funds \$ (24,681)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures and loan proceeds as other financing sources. However, in the statement of activities, the cost of those assets is allocated as depreciation over the useful life of the assets and the loan proceeds are recorded as a long term liability. The effect of the adjustments for these items in the current year is noted here. 975

Certain revenues will be collected after year-end but not within the period considered available to pay current period expenditures. Therefore, these amounts were recognized as revenues in the statement of activities but were not reported as revenues in the fund financial statements. 187,051

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. (596,643)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount of principal repayments. 193,325

Change in net assets of governmental activities \$ (239,973)

CITY OF KINGSTON, TENNESSEE
Notes to Financial Statements
June 30, 2010

NOTE 1 - REPORTING ENTITY

The City of Kingston, Tennessee (the "City") was incorporated in 1903 under the provisions of the State of Tennessee and operates under a Council-Manager form of government. It has the usual corporate powers of municipalities, including taxation, entering into contracts, and issuing bonds. The following services are authorized by Charter: Public Safety (Police and Fire), Streets, Sanitation, Health and Social Services, Culture-Recreation, Public Improvements, Planning and Zoning, Water and Sewer and General Administrative duties.

The City, for financial purposes, includes all of the funds relevant to the operations of the City of Kingston, Tennessee. The financial statements presented herein do not include agencies which have been formed under applicable state laws as separate and distinct units of government apart from the City of Kingston, Tennessee.

The financial statements of the City include the General Fund, the Drug Fund, the Waste Management Fund, and the Water and Sewer Fund.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Kingston, Tennessee, have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the City are described below:

Basic Financial Statements - Government-Wide Statements - The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The City's public safety, streets, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services are classified as governmental activities. The City's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net assets are reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The government-wide Statement of Activities reports both the gross and net costs of each of the City's functions (public safety, streets, etc.) and business-type activities. The functions are also supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits, and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating grants. Program revenues must be directly associated with the function (public safety, streets, etc.) or a business-type activity. Operating grants include operating-specific and discretionary grants. The City's policy is to eliminate internal activity by distinguishing overhead costs which are eliminated by inter-fund services used and provided. The City does not allocate indirect costs on the Statement of Activities.

The net costs (by function or business-type activity) are normally covered by general revenue (property, sales and use taxes, intergovernmental revenues, interest income, etc).

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net assets resulting from the current year's activities.

CITY OF KINGSTON, TENNESSEE
Notes to Financial Statements (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Basic Financial Statements - Fund Financial Statements - The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the City:

Governmental Funds - The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

General Fund - The General Fund is the general operating fund of the City. All financial resources, except those required to be accounted for in another fund, are accounted for in the General Fund.

Special Revenue Funds - Special Revenue Funds are used to account for all proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Proprietary Funds - The focus of proprietary fund measurement is upon determination of operating income, changes in net assets, financial position, and cash flows. The accounting principles generally accepted in the United States of America that are applicable are those similar to businesses in the private sector. The following is a description of the proprietary fund of the City:

Enterprise Fund - Kingston Utilities is an enterprise fund that falls under the proprietary fund type. Proprietary fund types are used to account for activities conducted on a fee-for-service basis in a manner similar to commercial enterprises providing services to the public. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Governments have the option of applying all Financial Accounting Standards Board (FASB) statements and interpretations issued after November 30, 1989, to its proprietary funds, unless they conflict with or contradict GASB pronouncements. The City has elected not to implement FASB statements and interpretations issued thereafter, unless they are adopted by GASB.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Accrual - Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Modified Accrual - The governmental funds financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

CITY OF KINGSTON, TENNESSEE
Notes to Financial Statements (Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Budgets and Budgetary Accounting - The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) Formal budgetary integration is employed as a management control device during the year for the General and Special Revenue Funds. These budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.
- (2) The combined statement of revenues and expenditures - budget and actual for the General and Special Revenue Funds present comparisons of legally adopted budgets with actual data on a budgetary basis.
- (3) The City Council approves the budget at the beginning of each year. The City Manager is then authorized by resolution to pay, without further Council action, bills and charges as specified in the budget.
- (4) Unused appropriations for annually budgeted funds lapse at the end of the year.

Accumulated Compensated Absences - The cost of vacation pay and sick leave benefits is recognized as earned by employees. In the event of termination or retirement, an employee is reimbursed for accumulated vacation days on a regular pay-period basis. In no event will an employee who has not completed at least six months of service receive vacation pay upon separation. Employees can accumulate sick leave, and upon retirement, employees are reimbursed for 50% of their accumulated sick leave benefits not to exceed nine hundred and sixty (960) work hours.

Capital Assets - The historical cost of capital assets (excluding infrastructure) is recorded in the Government-Wide Statements. Infrastructure assets have been recorded at deflated replacement cost. Depreciation is expensed based on the estimated useful lives of the assets on a straight line basis. Assets with a cost greater than \$1,000 are capitalized. Estimated useful lives range from 4 - 50 years.

Operating Revenue - Operating revenue consists primarily of charges for services provided by the principal operations of the City. Operating revenue is recorded when the service is rendered, on a cycle basis, and includes an estimate of unbilled revenue. Revenues are typically reported net of bad debt expense.

Non-operating Revenue - Non-operating revenue consists of revenues that are related to financing and investing types of activities and result from non-exchange transactions or ancillary activities.

Expense - When an expense is incurred for purposes for which there are both restricted and unrestricted net assets available, it is the City's policy to apply those expenses to restricted net assets to the extent such are available and then to unrestricted net assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Revenue Recognition

- (1) Property taxes are levied on October 1 and are due and payable at that time. All unpaid taxes levied October 1 become delinquent March 1 of the following year. Property taxes attach as an enforceable lien on property after one year of delinquency.

Property tax revenues are recognized when they become available. Available includes those property tax receivables expected to be collected within sixty days after year-end. Allowances for uncollectible taxes within the General Fund are based upon historical experience in collecting taxes.

The assessed value at January 1, 2008, upon which the 2009 levy was based, was \$118,403,591 not including public utilities. The tax rate was \$1.35 per \$100 of assessed value. Current tax collections for the year ended June 30, 2010 were 89% of the tax levy.

Sales taxes, which are collected by the State and subsequently remitted to the town, are recognized as revenues and receivables upon collection by the State, which is generally in the month proceeding receipt by the Town. Licenses, permits, fines and rents are recorded as revenues when received.

- (2) Kingston Utilities records revenue as billed to its customers based on a monthly meter reading cycle. Fees charged by Kingston Utilities to join an existing line or extension of an existing line are recorded as operating income. The related costs are expensed.

Inventories - Enterprise fund materials and supplies inventories are recorded at average cost.

Allowance for Uncollectible Accounts - At June 30, 2010, the allowance for uncollectible taxes in the General Fund was \$20,000 and the allowance for uncollectible accounts receivable in the enterprise fund was approximately \$50,000.

Cash Equivalents - Certificates of deposit with original maturities of three months or less are considered to be cash equivalents.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

CITY OF KINGSTON, TENNESSEE
Notes to Financial Statements (Continued)

NOTE 3 - DEPOSITS

At June 30, 2010, the bank balance of cash held with local financial institutions (checking and savings) was \$2,924,066 of which \$250,000 was covered by federal depository insurance, and \$2,674,066 was covered by collateral held in the City's name.

A summary of these deposits at June 30, 2010 is as follows:

	Balance Per Books	Balance Per Bank
Deposits		
Governmental activities		
Cash on hand	\$ 500	\$ -
Cash in checking and savings	1,027,599	1,235,305
	1,028,099	1,235,305
Business-type activities		
Cash on hand	200	-
Cash in checking and savings	1,029,599	1,688,761
	1,029,799	1,688,761
 Total cash and savings accounts	 \$ 2,057,898	 \$ 2,924,066

State statutes require that all deposits with financial institutions must be collateralized by securities whose market value is equal to 105% of the deposits, less amounts insured by the federal deposit insurance. The collateral must be held by the City, its agent or by the Federal Reserve in the City's name.

NOTE 4 - INTERFUND RECEIVABLES AND PAYABLES

Net amounts due from and to other funds at June 30, 2010 are summarized as follows:

	Due from	Due to
Water and sewer fund	\$ 27,282	\$ -
General fund	-	27,282
	\$ 27,282	\$ 27,282

CITY OF KINGSTON, TENNESSEE

Total depreciation expense - business-type activities	<u>\$ 400,242</u>

NOTE 6 - PENSION PLAN FUNDS - TENNESSEE CONSOLIDATED RETIREMENT SYSTEM

Plan Description

Employees of the City of Kingston are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's highest five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for a disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979 become vested after five years of service and members joining prior to July 1, 1979 were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapter 34-37 of the Tennessee Code Annotated (TCA). State statutes are amended by the Tennessee General Assembly. Political subdivisions such as the City of Kingston participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to Tennessee Treasury Department, Consolidated Retirement System, 10th Floor Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at <http://treasury.state.tn.us/tcrs/PS>.

Funding Policy

City of Kingston requires employees to contribute 5.0 percent of earnable compensation to the plan.

City of Kingston is required to contribute at an actuarially determined rate; the rate for the fiscal year ending June 30, 2010 was 7.50 percent of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for the City of Kingston is established and may be amended by the TCRS Board of Trustees.

CITY OF KINGSTON, TENNESSEE
Notes to Financial Statements (Continued)

NOTE 6 - PENSION PLAN FUNDS-TENNESSEE CONSOLIDATED RETIREMENT SYSTEM - (Continued)

Annual Pension Cost

For the year ending June 30, 2010, City of Kingston's annual pension cost of \$185,395 to TCRS was equal to City of Kingston's required and actual contributions. The required contribution was determined as part of the July 1, 2007 actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation and salaries), (c) projected 3.5 percent annual increase in the Social Security wage base, and (d) projected post retirement increases of 3.0 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a five-year period. City of Kingston's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2007 was 18 years. An actuarial valuation was performed as of July 1, 2007, which established contribution rates effective July 1, 2008.

NOTE 9 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City's risks of loss are covered by its commercial package insurance policies. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three years.

CITY OF KINGSTON, TENNESSEE
Notes to Financial Statements (Continued)

NOTE 10 - CONCENTRATIONS OF CREDIT RISK

Financial instruments that potentially subject the City to concentrations of credit risk consist primarily of customer accounts and taxes receivable. Management does not believe significant credit risk exists at June 30, 2010.

NOTE 11 - SUBSEQUENT EVENTS

The City's management has evaluated events and transactions occurring subsequent to the Statement of Net Assets date of June 30, 2010, for items that should potentially be recognized or disclosed in the financial statements. The evaluation was conducted through December 2, 2010 and no items of a significant nature were noted.

Report on Internal Control and on Compliance Over Financial
Reporting and on Compliance and Other Matters Based on an
Audit of Financial Statements Performed in Accordance
with *Government Auditing Standards*

Honorable Mayor,
Members of City Council and City Manager
City of Kingston, Tennessee

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Kingston, Tennessee, as of and for the year ended June 30, 2010, which collectively comprise the City of Kingston, Tennessee's basic financial statements and have issued our report thereon dated December 2, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Kingston, Tennessee's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Kingston, Tennessee's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Kingston, Tennessee's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Kingston, Tennessee's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management and others within the organization, City council members, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
